Curti's Landscaping

COME ALIVE OUTSIDE!

This time of the year as each day gains more

light and the snow starts melting, you can't help but get a bit excited for the warm weather. With that said, it's prime time to turn your attention back to the outside of your home. There are some things that just get downtrodden during the winter months. You may be on a budget but yet still wish to have a beautifully landscaped home.

With a little creativity, there are many ways to add some pizzazz with simple & inexpensive landscaping ideas, so you can enjoy your yard and still have the resources to do other things. After all, you'd like your home's exterior to look as nice as your home's interior, right? Here are some simple, yet helpful ideas that will make a difference on your lawn's appearance:

- * Plant Seasonal Flowers in landscape beds & pots.
- * Put down a layer of fresh shredded Root mulch. There are many benefits to mulch. See pg 2
- * Clean and re-sand existing pavers, patios/walkways.
- * Trim trees and shrubs.
- * Fertilize & Aerate your lawn.
- * Fine tune your Landscape Irrigation System, or better yet, install one!

Renovating your home landscape may be one of the best investments you can make for your enjoyment and, if listing, to aid in selling your home. Landscaping now will add value to your home, and when professionally done, you will gain a significant return on your investment. Those overgrown shrubs that you are thinking can wait another year for pruning or replacement are bringing down your property's value. Consider deciding how much you will spend before your consultation. Letting the landscape professional know your budget will allow him to make intelligent choices on plants and supplies that will make certain you both have a good experience.

As the beautiful weather brings us outdoors more often, we start to look around considering how to make the best use of our outdoor living space. Our professional landscape designers study your property, considering all aspects of your landscape and your lifestyle in order to deliver a "Master Plan" that works perfectly for you and your family. Whether you are interested in a paver brick walkway, slate patio, or stone retaining wall, CURTI's will design and install hardscapes to coordinate with your total landscape design. Water gardens are irresistible! Even the smallest one will draw children and adults to peer into their mysterious depths. There is nothing more relaxing than listening to the sounds of trickling water or staring across a glassy smooth, perfectly still pool of water. There is truly a water garden to suit everyone's taste and there is no company better than CURTI's to transform your property with a custom-designed landscape.

When planning your Spring projects keep us in mind. John Beaudry, our Landscape Construction manager, Bill Lenz, our Landscape Designer, Sam Fava, our Irrigation & Lighting Manager and Gavin Miele, our Client Account Manager are here to comprehensively evaluate your home and devise a landscape plan especially for your needs.

01 SIMPLE SPRING PROJECTS
– to consider today

02 – GET INSPIRED!- online
places to visit & see our work

03 – RECLAIM YOUR YARD TIME- get rid of pesky insects

GET INSPIRED! A LITTLE INSPIRATION CAN GO A LONG WAY!

For some, inspiration comes from looking at neighboring yards, or traveling to other areas of your town to look at landscaping. While others seek inspiration from home and garden publications and television do-it-yourself programs. Often times a stroll through your local home improvement gardening center is all the inspiration you need to get you motivated. But when you feel the itch, check out our online portfolios available below:

Landscaping your outdoor home is one of the joys of springtime, which many people look forward to. We hope that our work may inspire you. We are here to help you plan out your yard, and your expectations before you start. You will be surprised how much you can enjoy your landscaping endeavor once you have planned it in advance. Go ahead, get going, before you know it, summer will be here!

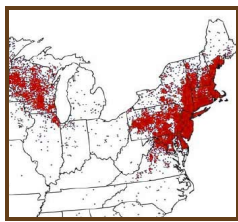

MOSQUITO AND TICK SEASON HAS OFFICIALLY BEGUN!

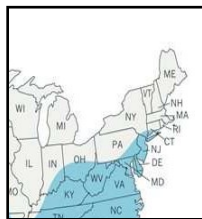

**COUNTY TREE
PRESERVATION**
ESTABLISHED 1966

Provides a variety of services to help keep you, your family, pets, and lawn, as safe as they can possibly be.

Is your yard and landscape ready for the onset of insect season? With all that Rockland, Bergen and Connecticut and the surrounding area has to offer, including our climate, abundance of trees, shrubs, and natural bodies of water, we have to take the good with the bad. The good is that we live in a beautiful area of the country. The bad is that we live in the area of our country that is among the hardest hit by dangerous mosquitoes, ticks, and fleas. In fact, the Center for Disease Control reports that a staggering **96% of all Lyme Disease cases** occur in only 13 states, which includes New York and New Jersey. To make matters worse, with over 33,000 cases reported last year, 26% of those (8,752 cases), were in New York and New Jersey. It is as alarming as it sounds, but preventative measures can be taken as we try our collective best to minimize the dangers.

Lyme Disease Case Map
(source: Center for Disease Control)

This image made available by the Centers for Disease Control and Prevention on Wednesday, March 30, 2016 shows a map of the United States with an estimated range of the Zika Virus carrying *Aedes aegypti* mosquito for 2016 indicated in blue

- * **Flea and Tick Prevention:**
A 4 Step Flea and Tick Program to prevent fleas and disease carrying ticks.
- * **Mosquito, Flea and Tick Prevention:**
5 Applications applied monthly beginning in May, this spray will help prevent mosquitoes, ticks and other biting insects from ruining your back yard fun.
- * **Party and Special Event Spraying:**
There's nothing worse than holding an outdoor event and watching your guests do battle with mosquitoes and other pests. We will be happy to arrange a special servicing to help control flying and biting nuisance insects so your guests can enjoy your special event.
